EPIC up

Upscaling the European Platform of Integrating Communities

EPIC-UP

About EPIC-UP

EPIC-UP aims to improve the **integration** and **inclusion** of **migrants** in local communities through a multi-actor collaboration model, where different groups come to work together.

This methodology fosters partnerships between migrants, migrant-led organisations, public authorities, and civil society groups.

By sharing experiences and ideas, we can join forces to develop **user-centred solutions** to local challenges, making integration strategies more effective.

The project is:

- Establishing Communities of Practices (CoPs) in six EU countries: **Bulgaria**, **Germany**, **Greece**, **Italy**, **Poland** & **Spain**.
- Mapping and benchmarking good practices in local migrant integration strategies.
- Identifying specific local needs and barriers to the development of integrating services.
- Implementing a capacity-building programme to enhance migrants' involvement in designing integration policies.
- Producing policy recommendations to make migration policies and initiatives better future proofed.
- Testing, monitoring and consolidating six new migrant integration services locally.
